Jill —

Deliberative Process / Ex. 5

It's an interesting situation. Thanks for letting me strategize with y'all.

Cheers. -BC

Hi Ben,

Deliberative Process / Ex. 5

Let me know if that makes no sense, or if you want to talk about it more.

jill

Mike, Rochelle, All -

Thanks for starting a strategy discussion on a path forward on OA. I think the questions are good, but I'd suggest focusing on the broader picture before diving into technical detail around benchmarks and the like.

Here are my own initial thoughts on OA path forward to spur discussion:

Deliberative Process / Ex. 5

in R10
direct biota
in our CWA
ed new

y if it
ject). Our

Rochelle has pulled together a two-pager for discussion purposes on how we in Region 10 could move forward on OA as we wait for the two panels findings and HQs.

We want to have a discussion with a small group in Region 10 prior to going any further so please do not circulate outside the people on this email.

We think there maybe sensitivity in HQs about us getting to far out front.

I will look for a time we can meet to discuss over the next several weeks.

Any questions give either Rochelle or myself a call.

If you do have comments please get them back by Friday July 31st if possible.
